

Environmental Policy Statement

Fraser Surrey Docks is a modern, multi-purpose marine terminal located in the Port Metro Vancouver along the banks of the Fraser River. Our organization has been serving the needs of our customers since 1962, providing loading and unloading services for container, breakbulk, project cargo, forest and bulk products. Our Environmental Policy reflects our commitment to conducting our operations and activities in ways that minimize the negative impact on our environment. Our organization is a model of an environmentally responsible organization, which promotes environmentally responsible behaviour among our key stakeholders, including employees, customers, shareholders, suppliers, contractors and the public.

This environmental policy applies to our activities, operations and processes within our Terminal located at 11060 Elevator Road, Surrey, BC:

Our environmental commitments are:

- ❖ To comply with all relevant environmental regulatory requirements, and conform with other environmental requirements for which we subscribe
- ❖ To the prevention of pollution by the use of processes, practices, materials and energy
- ❖ To establish and maintain an environmentally conscious Purchasing Policy
- ❖ To prevent air quality impacts by implementing appropriate air emission mitigation strategies and monitoring our performance against pre-established baselines and regulatory target levels
- ❖ To avoid or reduce the creation, emission or discharge of pollutants or waste, in order to reduce adverse environmental impacts
- ❖ To continually improve our the Environmental Management System by annually setting objectives and monitoring our key performance indicators
- ❖ To engage with our customers, suppliers, contractors and shareholders to promote environmental stewardship, to address and reduce the environmental impacts of our products and services along the value chain
- ❖ To foster, establish and maintain an internal environmental awareness culture for our employees and contractors that supports excellence in Environmental Stewardship
- ❖ To reach out to the communities in which we operate and promote Environmental Stewardship and awareness
- ❖ To communicate this policy both internally and externally
